|        | * Speed - Set 1:  
| | - (1) Sprint for 10 m, walk for 30 m. (2) Sprint for 20 m, walk for 20 m. (3) Sprint for 30 m, walk for 10 m. (4) Sprint for 40 m.  
| | - 3’ recovery                                                                 |

© 2018-19 UEFA Referees Committee
* Speed
- Set 2: Now first start with 40 m and then work down to 10 m.
- 3’ recovery

* Speed
- Set 3: Repeat set 1

* Medium Int.
- 30’ run at 80% $HR_{\text{max}}$ (± 6 km)
  In the middle of each 5’ of running, perform a tempo run over 100 m at 90% $SP_{\text{max}}$, or 6 x 100 m in total.

* Cool down
- 5’ jogging and walking, followed by 10’ static stretching.

**Total duration:** 90’

**Sun. 10th:**
If you don’t have a match appointment in the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,…).

You may also consider alternative intermittent activities such as playing badminton, football, squash, or tennis.

| Sat. 16th: | * Low Int.  
   Tr. 7  
   * Warm up  
   * Speed |
|         | - 5’ jogging slowly building up to 70% HR_{\text{max}} (± 1 km).  
|         | - 20’ jogging, mobilisation and dynamic stretching.  
|         | - 1) 11 m sprint, 11 m jogging, walking to start, 4 x  
|         |  2) 25 m sprint, 25 m jogging, walking to start, 2 x  
|         |  3) 50 m sprint, 50 m jogging, walking to start, 1 x  

- 3’ recovery
- **Set 2**: again 5 laps of 2’ each.
- All together, this exercise takes 10’ + 3’ recovery + 10’ = 23’.
- * Cool down  
  - 5’ jogging and walking, followed by 10’ static stretching.

**Total duration**: 73’
Performance Training in Football Refereeing
Weekly Training Plan

* Medium Int. - 35’ run at 80% HR_{max} (± 7 km)
   In the middle of each 5’ of running, a tempo run over 50 m has to be covered at 90% SP_{max}, or 7 x 100 m in total.

* Cool down - 5’ jogging and walking, followed by 10’ static stretching.

Total duration: 90’

Sun. 17th: If you don’t have a match appointment in the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,…).

You may also consider alternative intermittent activities such as playing badminton, football, squash, or tennis.
WEEK 25 from Monday 18\textsuperscript{th} to Sunday 24\textsuperscript{th} of June
Macrocycle I, week 3 (Training week 3)

Mon. 18\textsuperscript{th}:   
   REST DAY

Tue. 19\textsuperscript{th}:  
   * Low Int.   
      - 5’ jogging slowly building up to 70% $HR_{\text{max}}$ (± 1 km).

   * Warm up   
      - 20’ jogging, mobilisation and dynamic stretching.

   * Speed   
      - Short sprints from a dynamic start:
         - 2 x 5 m, 2 x 10 m, 2 x 15 m straight forward,
         2 x 20 m and 2 x 25 m (with a change in direction to the left)
         - 5’ recovery

   - The second set of the 10 sprints is done in reversed order,
     i.e. 2 x 25 m and 2 x 20 m (with a change in direction to the right),
     2 x 15 m, 2 x 10 m and 2 x 5 m straight forward.

   * High Int.   
      - 3’ run between 86 - 90% $HR_{\text{max}}$, 1’30" jogging, 4 sets
      - As before, this exercise has to be performed in the lower range of the HI-training zone.

   - All together this exercise takes ± 18’ (3’ per Set + 1’30” jogging x 4).

   * Cool down   
      - 5’ jogging and walking, followed by 10’ static stretching.

Total duration: 73’

Wed. 20\textsuperscript{th}:  
   REST DAY
Thu. 21st:
Tr. 9
- Low Int.
  - 5’ jogging slowly building up to 70% \( HR_{\text{max}} \) (+ 1 km).

- Warm up
  - 20’ jogging, mobilisation and dynamic stretching.

- Strength
  - Set 1 of the strength and injury prevention exercises (week 3).

- Speed End.
  - Set 1: 3 laps of 4’ each.
The running speed is expressed as a % of the maximal speed.

 Fri. 22nd:
REST DAY

Sat. 23rd:
Tr. 10
- Low Int.
  - 5’ jogging slowly building up to 70% \( HR_{\text{max}} \) (+ 1 km).

- Warm up
  - 20’ of jogging, dynamic exercises and stretching.

- Strength
  - Set 1 of the strength and injury prevention exercises (week 3).

- Speed/Agility
  - Set 1: Sprint exercise in the penalty area, 5 laps in total.
  - 5’ recovery

  - Set 2: Sprint exercise in the penalty area, again 5 laps in total.
- In total, this exercise takes 15’. The total sprint distance is ± 320 m.

* High Int. - Referees run 10’ at 80% HR\text{max}. This corresponds to ± 2 km. Then they run the same distance but now at 90% HR\text{max}, so that they are back at the start after only 8’.

* Cool down - 5’ jogging and walking, followed by 10’ extensive stretching.

**Total duration:** 75’

**Sun. 24th:** Officiating exhibition games to get match experience to prepare for the UEFA Europa and Champions League and the national championship.

If you don’t have a match appointment in the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,…).

You may also consider alternative intermittent activities such as playing badminton, football, squash, or tennis.
WEEK 26 from Monday 25th of June to Sunday 1st of July
Macrocycle I, week 4 (Training week 4)

Mon. 25th: # Tr. 11
* Low Int. - 5’ jogging slowly building up to 70% $HR_{\text{max}}$ (+ 1 km).
  * Warm up - 20’ jogging, mobilisation and dynamic stretching.
  * Medium Int. - 40’ run at 80% $HR_{\text{max}}$ (+ 8 km)
    In the middle of each 5’ of running, perform a tempo run over 50 m
    at 90% $SP_{\text{max}}$, or 8 x 50 m in total.
  * Cool down - 5’ jogging and walking, followed by 10’ static stretching.

Total duration: 80’

Tue. 26th: # Tr. 12
* Low Int. - 5’ jogging slowly building up to 70% $HR_{\text{max}}$ (+ 1 km).
  * Warm up - 20’ jogging, mobilisation and dynamic stretching.
  * Strength - Set 1 of the strength and injury prevention exercises (week 4).
  * High Int. - 2’ run at 90% $HR_{\text{max}}$, 1’ jogging, 6 x
    - This exercise has to be performed in the normal range of the HI-
      training zone (85 to 95% $HR_{\text{max}}$).
    - All together this exercise takes ± 18’ (2’ per Set + 1’ jogging x 6)
  * Cool down - 5’ jogging and walking, followed by 10’ static stretching.

Total duration: 68’

Wed. 27th: REST DAY

Thu. 28th: # Tr. 13
* Low Int. - 5’ jogging slowly building up to 70% $HR_{\text{max}}$ (+ 1 km).
  * Warm up - 20’ jogging, mobilisation and dynamic stretching.
  * Strength - Set 1 of the strength and injury prevention exercises (week 4).
  * Speed End. - Set 1: Suicide run: sprint from the goal line to the 5.5 m goal area
    line and back. Then immediately sprint from the goal line to the edge
    of the penalty area and back (16.6 m). Finally, sprint to the halfway
    line and back. One minute rest and then repeat 4 times the exercise.
    - 4’ active recovery
- Set 2: again 4 runs

- All together, this exercise takes 16’.

* Speed End. - 8’ of the following referee run

* Cool down - 5’ jogging and walking, followed by 10’ static stretching.

Fri. 29th: REST DAY

Sat. 30th: Tr. 14

* Low Int. - 5’ jogging slowly building up to 70% HR_{max} (+1 km).

* Warm up - 20’ jogging, mobilisation and dynamic stretching.

Total duration: 74’
* Speed

- **Set 1** of the following speed exercise.

  - 5’ recovery
  - **Set 2** of the same exercise.
  - In total, this exercise takes 15’. The total sprint distance is 280 m.

* High Int.

- For those referees who don’t have a match to officiate in the weekend, the following exercise can be done:
  - 1’ at 90% HR<sub>max</sub>, followed by 30” active recovery (jogging)
  - 2’ at 90% HR<sub>max</sub>, followed by 1’ active recovery (jogging)
  - 3’ at 90% HR<sub>max</sub>, followed by 1’30” active recovery (jogging)
  - 3’ at 90% HR<sub>max</sub>, followed by 1’30” active recovery (jogging)
  - 2’ at 90% HR<sub>max</sub>, followed by 1’ active recovery (jogging)
  - 1’ at 90% HR<sub>max</sub>, followed by 30” active recovery (jogging)
  - All together, this exercise takes 18’.

* Cool down

- 5’ jogging and walking, followed by 10’ static stretching.

**Total duration:** 73’

**Sun. 1<sup>st</sup>:** Officiating exhibition games to get match experience to prepare for the UEFA Europa and Champions League and the national championship.

If you don’t have a match appointment in the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,…).

You may also consider alternative intermittent activities such as playing badminton, football, squash, or tennis.
## WEEK 27 from Monday 2nd to Sunday 8th of July

**Macrocycle I, week 5 (Training week 5)**

### Mon. 2nd

<tr>
<td><strong>Strength</strong></td>
<td>- Set 1 of the strength and injury prevention exercises (week 5).</td>
</tr>
<tr>
<td><strong>High Int.</strong></td>
<td>- Set 1: 4 laps (+ 3’ each).</td>
</tr>
</tbody>
</table>

- The start of a new lap may be timed as follows:  
  - **Top:** Starting a new lap every 3’  
  - **Intermediate:** Starting a new lap every 3’15”
- 4’ active recovery.

- Set 2: again 4 laps of ± 3’ each.

- All together, this exercise take ± 12’ + 4’ + 12’ = 28’.

* Cool down - 5’ jogging and walking, followed by 10’ static stretching.

**Total duration:** 78’

---

Fri. 6th: REST DAY

Sat. 7th:

* Low Int. - 5’ jogging slowly building up to 70% HR_{max} (± 1 km).

* Warm up - 20’ of jogging, dynamic exercises and stretching.

* Speed - Set 1: 4 reps of the following centre-circle exercise:
- 5’ recovery

- **Set 2**: again 4 reps of the centre-circle exercise.

- The total exercise time is 15’. The total sprint distance is 288 m.

* High Int.  
- For those referees who don’t have a match to officiate in the weekend, the following exercise can be done:

  - 5’ at 90% HR_{max}, followed by 3’ active recovery (jogging)
  - 4’ at 90% HR_{max}, followed by 2’ active recovery (jogging)
  - 3’ at 90% HR_{max}, followed by 1’30” active recovery (jogging)
  - 2’ at 90% HR_{max}, followed by 1’ active recovery (jogging)
  - 1’ at 90% HR_{max}, followed by 30” active recovery (jogging)

  - All together, this exercise takes 23’.

* Cool down  
- 5’ jogging and walking, followed by 10’ extensive stretching.

**Total duration:** 88’

**Sun. 8th.**  
Officiating exhibition games to get match experience to prepare for the UEFA Europa and Champions League and the national championship.

If you don’t have a match appointment in the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,…).

You may also consider alternative intermittent activities such as playing badminton, football, squash, or tennis.
WEEK 28 from Monday 9th to Sunday 15th of July
Macrocycle 1, week 6 (Training week 6)

Mon. 9th: REST DAY

Tue. 10th: * Low Int.
Tr. 19
- 5' jogging slowly building up to 70% HR_{max} (+ 1 km).

* Warm up
- 20’ jogging, mobilisation and dynamic stretching.

* Strength
- Set 1 of the strength and injury prevention exercises (week 6).

* Speed
- 6 x 40 m sprint from a 1.5 m dynamic start, with max 60” recovery in between sprints. The minimum time for international referees is 6.0”. ARs perform 5 x 30 m in 4.7” max and 30” recovery.
- 5’ recovery

* High Int.
- The target zone of the next exercise is the normal range of the HI-training zone (85 to 95% HR_{max}).
- On the first whistle, referees have to cover 75 m in 15” from the start position on (1). Then they have 18” (international referees) or 20” (international ARs) to cover 25 m walking (2). On the next whistle, referees have to run again 75 m in 15” (3), followed by 25 m walking (4). This equals 1/2 lap. In one lap, there are 4 HI runs.
- The total exercise consists of 10 laps, resulting in 40 high intensity runs, each followed by a 25 m recovery walk.
- Referees have to arrive in the ‘walking area’ before the whistle and may not leave the ‘walking area’ before the whistle.
- The total duration of this HI run is 22’ for the referees and 23’20” for the ARs.
**Performance Training in Football Refereeing**

**Weekly Training Plan**

* Cool down - 5’ jogging and walking, followed by 10’ static stretching

**Total duration: 87’**

**Wed. 11th:**

**REST DAY**

**Thu. 12th:**

* Low Int. - 5’ jogging slowly building up to 70% HR_max (+ 1 km).

* Warm up - 20’ jogging, mobilisation and dynamic stretching.

* Strength - Set 1 of the strength and injury prevention exercises (week 6).

* Speed & Ag. - Set 1 of the following exercise that consists of 4 reps

- 4’ of the following exercise
- Set 2 of the same exercise (4 reps), now starting on the other side

* Cool down - 5’ jogging and walking, followed by 10’ static stretching

**Total duration: 70’**

**Fri. 13th:**

**REST DAY**

**Sat. 14th:**

* Low Int. - 5’ jogging slowly building up to 70% HR_max (+ 1 km).

* Warm up - 20’ jogging, mobilisation and dynamic stretching.
Performance Training in Football Refereeing
Weekly Training Plan

- Set 1: using a dynamic start over a 5m course:
  > 4 maximal 20 m sprints (+ 3")
    with 20" active recovery (walking back)
  > 3 maximal 40 m sprints (+ 6")
    with 40" active recovery (walking back)
  > 2 maximal 60 m sprints (+ 9")
    with 1' active recovery (walking back)
  > 1 maximal 80 m sprint (+ 12")
    with 1'20" active recovery (walking back)
  > Jog 1 lap of the pitch (+ 2’30")
  > Duration Set 1: ± 11’30"

- Set 2:
  > 1 maximal 80 m sprint (+ 12")
    with 1'20" active recovery (walking back)
  > 2 maximal 60 m sprints (+ 9")
    with 1' active recovery (walking back)
  > 3 maximal 40 m sprints (+ 6")
    with 40" active recovery (walking back)
  > 4 maximal 20 m sprints (+ 3")
    with 20" active recovery (walking back)
  > Jog 1 lap of the pitch (+ 2’30")
  > Duration Set 2: ± 11’30"

- The total duration of this extended speed session is ± 23’ including 5’ active recovery.
* High Int.  - For those referees who don’t have a match to officiate in the weekend, the following exercise is scheduled.

- Referees run 6’ at 80% $HR_{max}$. This corresponds to $\pm 1.2$ km. Then the same distance is covered but now at 90% $HR_{max}$, which corresponds to a running time of $\pm 4’$ (Set 1).

- 2’ recovery

- Referees run again 6’ at 80% $HR_{max}$ ($\pm 1.2$ km). Then they run the same distance but now at 90% $HR_{max}$, so that they are back at the start after $\pm 4’$.

* Cool down  - 5’ jogging and walking, followed by 10’ static stretching.

**Total duration: 85’**

**Sun. 15th:** Officiating exhibition games to get match experience to prepare for the UEFA Europa and Champions League and the national championship.

If you don’t have a match appointment in the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,…).

You may also consider alternative intermittent activities such as playing badminton, football, squash, or tennis.
