WEEK 13 from Monday 25th of March to Sunday 31st of March
Macrocycle VIII, week 1 (Training week 43)

              Tr. 163

Tue. 26th:  * Low Int.  - 5’ jogging slowly building up to 70% HR$_{max}$ (+ 1 km).
              Tr. 164
              * Warm up  - 20’ jogging, mobilisation and dynamic stretching.
              * Strength  - 15’ individualised strength, core stability & injury prevention
                            exercises (abdominals, back muscles, sideways, arms, legs, see
                            Library TSL for 2 sets of 30”-30” exercises).
              * High Int.  - Set 1:
                            Referee A performs a HI run clockwise from the midline to the corner
                            flag, then to the other corner flag, and finally to the other side of the
                            midline. In the meantime, Referee B crosses the midline by walking or
                            jogging. He needs to arrive at the other side when Referee A arrives.
                            When they meet, their roles change, i.e. Referee B performs a HI run
                            counter-clockwise the same trajectory, while Referee A recovers by
                            walking / jogging back to the starting position. The second HI-run of
                            referee A is done on the other side of the field so that he takes the turns
                            on his L-shoulder. All together this exercise is done 5 full laps, or 10 HI-
                            runs for each of the referees.
                            All together, this first run takes ± 10’ (1600 m HI running alternated with
                            600 m recovery for each referee).
                            - 2’ recovery
                            - Set 2:
                                Perform another 5 full laps (or 10 HI-runs for each of the referees).
                                All together this exercise takes ± 22’.
                                (10’ Set 1 + 2’ recovery + 10’ Set 2)

**WEEK 16 from Monday 8th to Sunday 14th of April**

**Macrocycle VIII, week 3 (Training week 45)**

**Mon. 8th:**
- *Act. Rec.*
  - 50’ recovery session in a fitness centre.

**Tue. 9th:**
- *Low Int.*
  - 5’ jogging slowly building up to 70% HR\(_{\text{max}}\) (+ 1 km).
- *Warm up*
  - 20’ jogging, mobilisation and dynamic stretching.
- *Strength*
  - 15’ individualised strength, core stability & injury prevention exercises (abdominals, back muscles, sideways, arms, legs, see Library TSL for 2 sets of 30”-30” exercises).
- *High Int.*
  - **Set 1:** Field exercise, 10 to 12 x
    - From the start, run at high intensity to the other side of the field, turn around the cone and return at high intensity (150 m in total in 30 sec) as indicated in the picture, afterwards walk back to the start (50 m in 35 sec) and repeat 10 laps. The fitness level determines around which cone the referees may turn.
  - 4’ recovery
  - **Set 2:** Same as set 1, however, run in the opposite direction.
  - All together, this HI exercise takes 19’ 40”, including 2’ rec.

**2 sets of 10 HI runs**

- One lap: 1’05”
- Set 1 (10 HI runs): 10’ 50”
- Recovery: 2 min
- Set 2 (10 HI runs): 10’50”
- Total duration: 19’40”

Walking: W 1000 m
Jogging: J ---
Backwards: BW ---
Sideways: SW ---
High intensity: HI 3000 m
Sprint: S ---
Total distance: 4000 m

* Concentration: - When the referee arrives in the penalty area after his 150 m run, the coach moves along the edge of the penalty area with a ball in his hands. When he bounces the ball on the ground, the referee has to decide if it is a foul for the attacking team inside (>penalty) or outside (> free kick) the penalty area. If the referee’s decision is correct > thumbs up, if not > 5 push-ups.
- Even better is to use video clips after each lap at the finish position to challenge the referee’s decision making during HI running.

- In total, this exercise takes 10’50” + 4’ recovery + 10’50” = 21’40”.

* Cool down

- 5’ jogging and walking, followed by 10’ extensive stretching.

**Total duration: 76’**

Sun. 5th: If you don’t have a match appointment for the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,…).

Alternatively, you may also consider other intermittent activities such as playing badminton, football, squash, tennis, or alpine/cross-country skiing to benefit from complementary mental and physical stimulation.
